

PCA plot showing the distribution of samples (NC_072401.2 to NC_072411.2) along PC1 (12.2%) and PC4 (6.2%). The plot displays various tRNA genes and their expression levels, color-coded by tRNA type: AAC (black), ACC (red), AGC (blue), AUA (green), CAC (purple), CUA (yellow), GAC (orange), GUA (pink), TCA (grey), and TTA (brown). The plot also shows the expression of tRNA genes for each sample, with labels indicating the tRNA type and the corresponding sample ID (e.g., 1::NC_072401.2:1353087-1367346).
