

## PC2 vs PC4

## Clade

- The figure displays a circular phylogenetic tree with 16 nodes, each representing a bacterial strain. The strains are color-coded and grouped into clusters:

  - Red cluster: NC\_071985.2
  - Grey cluster: NC\_071988.2, NC\_071990.2, NC\_071994.2, NC\_071995.2, NC\_071999.2, NC\_072000.2
  - Light blue cluster: NC\_071991.2
  - Pink cluster: NC\_071997.2
  - Dark grey cluster: NC\_071998.2
  - Light green cluster: NC\_071996.2
  - Orange cluster: NC\_071992.2
  - Yellow cluster: NC\_072003.2, NW\_026946739.1
  - Grey cluster (right side): NC\_072002.2, NC\_072004.2, NC\_072005.2, NC\_072007.2, NC\_072008.2, NC\_072009.2, NC\_085928.1, NC\_085929.1, NW\_026946741.1
