

PC1 vs PC2

Clade

- A circular phylogenetic tree diagram showing relationships between various NC_07... sequences and NW_026946739.1 and NW_026946741.1. The tree is rooted at the bottom and branches upwards. Nodes are colored according to their sequence ID: red for NC_071985.2, grey for NC_071988.2, light grey for NC_071990.2, green for NC_071991.2, orange for NC_071992.2, dark grey for NC_071994.2, medium grey for NC_071995.2, lime green for NC_071996.2, blue for NC_071997.2, pink for NC_071998.2, dark grey for NC_071999.2, and grey for NC_072000.2. The root node is yellow. Other nodes are also yellow, representing sequences NW_026946739.1 and NW_026946741.1.
